Harshil Rastogi

Presenting

DEMO 1 OF 10

01

1Dial

Voice-first AI concierge that completes real-world tasks from one phone call or text.

ON STAGE, LIVE

A live phone call with a messy request: 1Dial plans, acts on outside systems, checks the result and confirms on the same call. If it can't finish safely, it hands off to a human instead of guessing.

81 of the first 100 beta tasks done fully by AI

Hanhan Wu

Presenting

DEMO 2 OF 10

02

Agentopia

A credit score for AI agents and MCP servers.

ON STAGE, LIVE

Enters a public MCP server's URL. Agentopia finds it, collects public technical evidence and produces a trust score that explains itself, plus steps to improve it.

Unknown service to trust score in 3 minutes

DEMO 3 OF 10

03

Atmanity

Live video agent that feels incredibly human.

Chen-Ping Yu

Presenting

ON STAGE, LIVE

A live, unscripted conversation with the video agent on stage, so the room can judge how human it feels.

Gives text and voice agents a human face

DEMO 4 OF 10

04

ANCI

Your assistant's AI assistant: an AI agent that works for executive assistants and handles the back-and-forth of scheduling.

Raj Lal

Presenting

ON STAGE, LIVE

A messy scheduling request with several people, their calendars and pasted Calendly links. ANCI finds the time that works for everyone and books it, live.

Your Assistant Got an AI Assistant

Gabriel Lancelot & Maxence Rabrais

Presenting

DEMO 5 OF 10

05

Barkan

Learns a SaaS product's screens and guides users with a live cursor while doing the steps for them.

ON STAGE, LIVE

Takes a real product task, works out the steps on screen, moves the cursor and completes the workflow live.

Live with customers

DEMO 6 OF 10

06

Bolt by Sparcle

Answers on your device with no AI call when none is needed, and hides private data before anything reaches a model.

Rajendra Patil

Presenting

ON STAGE, LIVE

Finds a boarding pass and a file in under a second with no AI call, then hides the name and record number on a medical report before it reaches the AI.

Saves time, cuts token spend, stops data leaks

Obaid Ahmed

Presenting

DEMO 7 OF 10

07

CrewX

People and agents in one shared workspace.

ON STAGE, LIVE

Cloud agents and local agents working together on one problem, alongside the team.

Brings everyone's agents into one room

Sean Shadmand

Presenting

DEMO 8 OF 10

Grum

08

Checks what coding agents build against the team's design rules and writes the fix instructions.

ON STAGE, LIVE

A coding agent builds a screen from a messy request. Grum flags where it breaks the design rules, and the agent fixes it in a loop, like a unit test.

Works with Cursor, Claude and Codex

DEMO 9 OF 10

09

Maverick

Helps teams build tougher, battle-tested AI agents.

Abhishek Bhattacharyya

Presenting

ON STAGE, LIVE

Profiles a live agent, invents scenarios built to derail it, runs them and suggests fixes.

Stress-tests agents against model misbehavior
